-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

It should be noted that the examiner has renumbered claims 62-120 as claims 60-118.

The original application claims ended with claim 59, not claim 61.

### ***Specification***

1. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1,60,61,63,64,67,81,107,108,109,110,113,114,117 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stephenson et al '936.

Stephenson is considered to render obvious all of the subject matter of the above claims. Specifically, Stephenson shows an aortic compression means 14, a fluid reservoir 20 and a pump 24 that is stimulated electrically to contract to squeeze reservoir 20. It is considered to be obvious to shape and interconnect the devices as necessary to place them inside the patient in the most desirable

location. Further, regarding claim 81, the pressure port 40 is considered to be the means to sense pressure.

4. Claim 84 is rejected under 35 U.S.C. 103(a) as being unpatentable over Stephenson '936 as applied to claim 81 above, and further in view of Gruss et al (WO 99/04833).

Stephenson teaches all of the subject matter of the above claim except a compliance chamber. The application of Gruss et al shows such a chamber 3. It would have been obvious to use such with the invention of Stephenson since such provides for the efficient regulation of pressure in the system, and thus prevents possible malfunctioning.

***Allowable Subject Matter***

5. Claims 77,78,79,80,83,89-106,115,116,118 are allowed.
6. Claims 62,65,66,68-76,82,85-88,111,112 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
